OBJECTIVE

Frontend Developer skilled in React, JavaScript, HTML & CSS, delivering user-friendly web interfaces. Eager to contribute technical expertise and drive innovation in a dynamic web development role.

PROJECT

Chat Application

Developed a real-time chat application using Node.js, React, and TailwindCSS, with MongoDB for message storage and MySQL for user authentication and management.

Multi-language Translator

A multi-language translator website built using Python and MySQL, featuring user authentication (login/signup) and leveraging various Python libraries for real-time language translation.
